

APPELLANT'S LIST OF DOCUMENTS, ORGANISED BY THE MATTERS IN ISSUE

Served on the Respondent · 9 September 2026

This list is given in discharge of the Appellant's disclosure obligation. It supersedes and consolidates the list served on 5 August 2026, and adds the documents served since. It lists documents in the Appellant's possession or under his control that are directly relevant to a matter in issue, together with documents no longer or never in his possession and those for which privilege or statutory protection is claimed.

How it is organised. The list of 5 August 2026 was organised by disclosure status. This list is organised by the **matter in issue**, in the order those matters are pleaded in the Amended Statement of Facts and Contentions filed 7 April 2026, so that each document can be found against the matter to which it goes. The disclosure status of each document is carried in the last column. Section headings identify the pleaded paragraph and do not repeat its terms; each document is described by what it is, not by what it is said to prove.

Disclosure is continuing. This list will be supplemented as further documents come into the Appellant's possession, including the clinical records at section 11 and any further medical certificate or capacity advice.
