

Notice of medical appointments arranged, and of costs

Request for Medical Information dated 31 July 2026 · MSH-INJ-5795

Cory Lea Shepherd

AO3, Switchboard Services, Logan Hospital, Metro South Health

To: Injury Management, Human Resources, Logan BaySide Health Network
lbh_injuryManagement@health.qld.gov.au

Cc: LBH.HRTeam1@health.qld.gov.au
Mr Scott Hughes, Director, Corporate Services

Date: 3 August 2026

1. THE APPOINTMENTS ARE MADE

The letter of 31 July 2026 asks that the information sought be returned within seven calendar days, and states that if it is not received a decision will be made regarding my ability to perform my role on the information then available.

I record that I have arranged the appointments necessary to obtain that information. They are:

- (a) Dr Day Hong Ma, My Doctor Clinic — [DATE], [TIME].
- (b) Dr [PSYCHIATRIST], [PRACTICE] — [DATE], [TIME].

Both are booked and confirmed. I will provide the information as soon as the reports are received, and I will keep the Health Service informed of any change to those dates.

I record this so that there is no question about my engagement with the process. I received the request on 31 July 2026 and the appointments were arranged the same week.

2. THE TIMEFRAME

The seven-day period runs to 7 August 2026. Medical practitioners do not ordinarily complete reports of this kind within seven days of being asked, and the Health Service will be aware of that from its own experience of such requests. The letter of 7 July 2026 also set a seven-day period, and the Health Service itself advised on 15 July 2026 that it was unable to commit to a timeframe for the same information.

I am not asking for the period to be extended as a concession. I am telling the Health Service what is in fact happening, and when the information will follow.

I ask that no decision be made regarding my ability to perform my role on the basis that information has not been provided, while the appointments the Health Service's own request made necessary are pending. If the Health Service intends to make such a decision before the reports are received, I ask to be told in advance, and to be told what decision is contemplated and under what instrument.

3. THE QUESTIONS TO BE PUT

My response of the same date proposes an allocation of the nine questions between my general practitioner, my treating psychiatrist and the Health Service, and asks that one question be withdrawn.

So that my practitioners are not asked to answer questions the Health Service does not press, and so that no cost is incurred unnecessarily, I ask the Health Service to confirm which questions it presses and to whom each is directed. I will put to each practitioner the questions the Health Service confirms.

If I do not hear before the appointments, I will put the questions as allocated in my response, and will tell the Health Service what was asked of whom.

4. COSTS

I do not ask for anything under this heading. The position is already settled by the Health Service's own letter, and I record it only so that the arrangement is clear.

The letter of 31 July 2026 states:

"MSH will meet your reasonable costs of preparing this report and we appreciate your assistance with this request. Please send invoices to Michelle Harrison, Injury Management Consultant, Human Resources, Logan and

Beautesert Health Services via email at lbh_InjuryManagement@health.qld.gov.au."

I accept that arrangement and have proceeded on it. I have instructed each practitioner to render their account directly to Ms Harrison at that address, quoting MSH-INJ-5795, and not to me. I will advise the expected fees once each practitioner confirms them.

For completeness, and because they are separate matters:

- (a) THE REPORTS NOW SOUGHT. The arrangement above covers them. The questions I propose to put to my treating psychiatrist are questions from the Health Service's own request, allocated as set out in my response, and I proceed on the basis that they fall within it. If the Health Service takes a different view as to any part, I ask to be told before the appointments so that no cost is incurred on a footing that is not agreed.
- (b) THE CONSULTATION OF 3 JULY 2026. That is an earlier and separate cost. It was invoiced to me personally — My Doctors Clinic, invoice 574370, 3 July 2026, \$150.00 — and I paid it in full on 10 July 2026, receipt N471065713633. I asked on 30 July 2026 that it be reimbursed to me. That request has not yet been answered and I simply record that it remains outstanding.

I record, without making anything of it, that I have been without wages since 13 July 2026 and have to this point met the medical costs of this process from my own funds.

5. WHAT THIS NOTICE DOES NOT DO

- (a) This notice does not vary my response of the same date, and does not withdraw the request at Part 5 of that response that question 1(b) not be put.
- (b) Nothing in it is a concession that I am unfit to attend work, or that my attendance properly awaits the reports. I hold a certificate, and the Health Service's letter of 7 July 2026 records that I have been "certified fit to return to work effective from 3 July 2026". My position on attendance and pay is dealt with separately.
- (c) Nothing in it is a request for leave of any kind.

I confirm again that I am engaging with this process and want to return to work.

Yours sincerely,

Cory Lea Shepherd
