

SERVICE SHEET — supplementary disclosure to the Regulator

INTERNAL — this page is not sent

COVERING EMAIL — the whole of it

To: Renee.Matheson@oir.qld.gov.au · Cc: the OIR appeals registry
Subject: WC/2024/227 — Shepherd — supplementary disclosure

Dear Ms Matheson,

By way of continuing disclosure, I attach a supplementary list of documents together with the four documents it lists.

Kind regards,
Cory Lea Shepherd
Appellant, WC/2024/227

NOTHING FURTHER. No mention of the request for medical information, the psychiatrist, the report, the exclusion, or any date in July 2026. No explanation of why these documents or why now — the 5 August list already said disclosure was continuing, and an explanation is the one thing that would make this email interesting. **Send before the pack goes to the practice.**

THE FOUR ATTACHMENTS TO THE EMAIL

- 1 · **SUPPLEMENTARY_LOD_17AUG2026.pdf** — the list itself
- 2 · the **role description** (the same file that is Attachment 3 of the clinician pack — the document alone, no index page)
- 3–5 · the **three movement forms**, as three separate source PDFs from documents/ — **NOT** the stitched Attachment 5, whose index page is pack material

SEQUENCE. Send this **FIRST** on Monday morning, then the pack to the practice. Same-day is sufficient; the order is what matters — the Regulator must hold the documents before the practice holds an instruction that reasons from them.

AND AFTERWARDS: when the report is later disclosed, the covering note already says the same report went to both parties. Nothing in this service sheet is ever referred to again — a supplement to a continuing-disclosure list needs no follow-up.
