Subject: ACTION REQUIRED | Request for Medical Information: Cory Shepherd (MSH-INJ5795)
Specialist attendance 12 August 2026, two matters required before the report, outstanding wages,
interim return to work

Dear Ms Harrison,

I refer to the Request for Medical Information dated 31 July 2026 and the extended timeframe for response. I have copied my union, Together Queensland (Ms Emily Petering), for its awareness and support, and the Mind and Memory Service, so the practice has visibility of how Dr Krishnaiah's requirements are conveyed below and can correct me if I have misstated them.

1. The specialist attendance has occurred

I attended my treating psychiatrist, Dr Krishnaiah of the Mind and Memory Service, on 12 August 2026 to respond to the request.

2. Two matters are required before the report can be provided

As a matter of his clinical reasoning, Dr Krishnaiah requires the following from the Health Service:

(a) The basis of the inquiry, being the incident, change or concern that prompted it. None is identified in the correspondence. The reduced-hours working arrangement the request concerns was formalised by the Health Service itself: it was created in MyHR by my manager on 1 June 2026 and approved by me before its due date of 2 June 2026. The Employee Capability Checklist of 3 July 2026 records that arrangement as a continuation, worked and tolerated without deterioration.

(b) The working arrangement against which capacity is to be assessed. The request describes my employment as permanent full-time (76 hours per fortnight). The operative working arrangement is the one the Health Service formalised on 1 June 2026. The report cannot be prepared without confirmation of which arrangement capacity is to be assessed against.

These requirements may be verified directly with the practice, and I consent to the practice confirming them to the Health Service if contacted. I note that Britney from the Mind and Memory Service has been in direct contact with you and can confirm the practice's view.

Once the two matters above are provided, I will confirm the expected turnaround for the report promptly.

Outstanding wages and hardship

I have received no wages since 13 July 2026, and the fifth week has now begun. I have been held out of the workplace since 26 June 2026, now the sixth week. Over that period my accrued leave has been debited, superannuation contributions have ceased, I am meeting living and financial commitments with no income from any source.

Throughout the same period I have held a current certification of fitness for my role with restrictions (3 July 2026) and have remained available to work under the arrangement the Health Service itself formalised on 1 June 2026. The hardship is therefore not the product of any incapacity or unavailability on my part. It arises from the withholding of work and wages while the basis for the Health Service's own inquiry remains unidentified, and it compounds with each pay cycle.

While an employer may seek medical clarification, it must be able to identify what prompted the inquiry, assess the information it already holds, and communicate its position. While it considers, it cannot properly leave an employee who is certified fit, and whose working arrangement it formalised itself, without wages or work. At present no basis for either has been identified.

What I ask

(i) That the necessary payroll correction (AVAC) be submitted within 24 hours of this email, with confirmation to me, and my outstanding wages processed as a priority payment rather than held to the next scheduled pay run.

(ii) That pending the Health Service's response on item 2, I be returned to the roster under the existing formalised arrangement of 1 June 2026, consistent with the current certificate of 3 July 2026. If the Health Service's position is that it cannot return me to the roster in the interim, please state that position and the reason for it.

If the AVAC is not confirmed within 24 hours and the matters above are not addressed by Friday the 14th of August 2026, I will consider the position a refusal and take the steps available to me to have the wages and the return to work determined externally. I would much prefer to resolve this administratively.

Kind regards,

Cory Lea Shepherd
