

ATTACHMENT 2 - PSYCHOSOCIAL HAZARD IDENTIFICATION

Employee: Cory Lea Shepherd | MSH-INJ-5795 | Administration Officer (AO3), Switchboard Services, Logan Hospital
Provided in response to correspondence of 13, 15 and 29 July 2026 referring to whether the matters identified by Dr Ma "present any psychosocial hazards or risks".
Framework: EB12 cl 7.2 (risk assessments of workplaces); Managing the risk of psychosocial hazards at work Code of Practice 2022 (Qld); WHS Act 2011 (Qld) ss 47-49 (consultation).

Q1. Is any psychosocial hazard identified in connection with my performing the duties of my position within the certified restrictions?

YES [] NO []

Q2. If yes, is the hazard said to arise from:

(a) the work, the work system, or the way work is managed [] (b) the employee []

The Code of Practice identifies psychosocial hazards by reference to features of work and its management - job demands, low job control, poor support, low role clarity, poor organisational change management, low reward and recognition, poor organisational justice, poor workplace relationships, and similar.

Hazard identified	Source in the work or work system	Risk, and to whom	Assessment conducted (date, by whom, method)	Controls considered, and outcome	Workers / HSRs consulted (who, when)

If no psychosocial hazard is identified, please confirm that, so that any request for further medical information can be confined to my capacity, my restrictions, and their operational application to the duties of my position.
