

REQUEST FOR MEDICAL INFORMATION — FORM A — General Practitioner

Questions arising from the correspondence of Metro South Health dated 31 July 2026 · Ref MSH-INJ-5795 · CLM-317073

Patient: Mr Cory Shepherd **DOB:** 11 January 1991
Employer: Metro South Health — Logan and Beaudesert Health Service
Role: Administration Officer (AO3), Switchboard Services, Logan Hospital (permanent full-time, 76 hours per fortnight)

To: Dr Day Hong Ma
General Practitioner
My Doctors Clinic
16/3221 Surfers Paradise Boulevard
Surfers Paradise QLD 4217

Date: 31 July 2026

This form is provided by the patient, Mr Cory Shepherd. It is not a document of Metro South Health. The Health Service issued nine questions on 31 July 2026. Four of those are not medical questions and have been returned to the Health Service. The questions below are those properly within your field. They are reproduced as the Health Service put them.

Metro South Health has advised in writing that it "will meet your reasonable costs of preparing this report". Invoices are to be sent to Ms Michelle Harrison, Injury Management Consultant, Human Resources, Logan and Beaudesert Health Service, lbh_InjuryManagement@health.qld.gov.au.

Questions for Dr Day Hong Ma, treating general practitioner

1(a) When was Mr Shepherd first diagnosed with Major Depressive Disorder?

Mr Shepherd states this was 24 October 2024 and asks that you confirm from your records.

1(c) Whether the workplace stressors identified in the Employee Capabilities Checklist are based solely on Mr Shepherd's self-report, your own clinical assessment, or other medical information/reports available to you.

You may wish to identify the specialist reports held on file, including the report of Dr Ravikumar Bangalore Krishnaiah, Consultant Psychiatrist, dated 13 February 2025.

4 If Mr Shepherd is not able to return to his substantive role under the existing reporting arrangements, please specify any restrictions or adjustments you recommend, the clinical basis for those recommendations in functional terms, and the anticipated duration and review date.

The Employee Capabilities Checklist of 3 July 2026 records 3–6 months with 8-weekly review, next review 28 August 2026. Please confirm whether that remains your opinion.

5 The Checklist recommends that Mr Shepherd not undertake complaint-handling duties. Please clarify what specific activities are encompassed within “complaint handling” — receiving, documenting, redirecting, resolving, or all complaint-related interactions.

The Health Service has advised that its established process is immediate escalation to the Client Liaison Officer and/or Manager, Switchboard Services, and the Role Description records no complaint-handling duty.

6 Please confirm the medical records and specialist reports you hold in respect of Mr Shepherd, and whether the Employee Capabilities Checklist you completed on 3 July 2026 remains your opinion.

7 The Employee Capabilities Checklist refers to “the pattern Mr Shepherd has in fact worked and tolerated over the past twelve months without deterioration”. If the actual rostered pattern for that period is provided to you by the employer, please confirm whether it remains suitable and whether it supports the restrictions recommended.

The rostered and worked pattern for the twelve months is held by Metro South Health, not by Mr Shepherd. He understands it to have been in the order of six shifts per fortnight, against a full-time equivalent of 76 hours per fortnight, but has asked the Health Service to produce its own record. This question is included so that it can be answered once that data is available, rather than estimated.

Questions concerning the clinical basis of causation, the functional effects of working memory, and the specific tasks or environments said to exacerbate the condition have been directed to Dr Ravikumar Bangalore Krishnaiah, Consultant Psychiatrist, Mind and Memory Service, as the treating specialist.
