

WC/2024/227 – Cory Lea Shepherd v Workers' Compensation Regulator**Appellant's conference paper** | Second conference under section 552A of the *Industrial Relations Act 2016* |

Provided to the Respondent on 25 September 2026

This paper is provided to the Respondent for the purposes of the conference. The Appellant asks the Respondent to indicate, before the conference, its position on each question in sections 3 to 6 (using the response schedule at section 8) and its settled position on each action listed in section 7. Fact numbers are those of the Appellant's notice to admit facts of 28 August 2026, as answered by the Respondent on 8 September 2026. Tab numbers are those of Annexure A to that notice. "SOFC" is the Respondent's amended statement of facts and contentions dated 13 May 2026.

1. What is settled

The Respondent admitted 298 of the 303 facts. The other five were not admitted, and none was denied. 29 of the 39 documents annexed to the notices are admitted or confirmed. No admission has been withdrawn. The Respondent has served outlines of evidence for four lay witnesses and no medical or expert evidence.

2. What can be closed at this conference

	Matter	What would close it
A	The ten documents not yet admitted or confirmed (Tabs 1, 5, 17 to 19, 21, 22, 23, 24 and 31)	An agreed list of documents to be tendered without further proof, once Metro South Health provides its copies. The contents of all of them except Tab 31 are already admitted
B	Facts 228 to 231: the 2024 Emergency Code Register entries for 17 to 19 March 2024	Production of the MET call spreadsheet that Metro South Health, in its letter of 5 June 2026, states "is available for the period 17-18 March 2024" (fact 268)
C	The medical evidence	The Respondent to indicate whether it requires Dr Krishnaiah and Dr Hawes to attend for cross-examination
D	SOFC [27]: the management action said to be reasonable	The Respondent to state its settled position on each admitted action listed in section 7. Fact 303 admits that SOFC [27] does not identify them

3. Questions arising from the Respondent's outlines of evidence of 24 September 2026

Each question below arises where a passage in the Respondent's outlines sits beside a fact the Respondent has admitted. The Appellant asks the Respondent to indicate its position on each, so that the issues for any hearing can be confined to those genuinely in dispute.

	Question for the Respondent	The admitted record
1	Does the Respondent maintain that no directives were issued without consultation or assessment (SOFC [11]; outline of Ms Taylor)?	Ms Taylor's email of 15 April 2024: "This new process is effective from today" (facts 49 to 53; Tab 6, confirmed 23 September 2026). A further new process from 19 April 2024 (fact 54). No clause 6.2 agreement or ballot is alleged (facts 180, 181). The Chief Executive's letter of 5 June 2026: fatigue risk assessment at the switchboard "occurred after 30 June 2024" (fact 264; Tab 20, confirmed)
2	Does the Respondent maintain that on 13 to 15 May 2024 the Appellant failed to follow the on-call notification process (SOFC [16(b)]; outline of Ms Taylor)?	Ms Taylor's email of 15 April 2024: contact her "through switch/office or mobile" (fact 163). Her email of 14 May 2024: "either through switch or my office/mobile" (facts 164, 165). It is not alleged that the Appellant was told, before 14 May 2024, that notifying his unavailability by telephoning the Switchboard did not comply (fact 166)
3	Does the Respondent maintain that the Appellant's email of 15 May 2024 was an accusation (outline of Ms Reese)?	Ms Taylor's email of 23 August 2023, "What's Chloe's Hours?!": start "between 6-9am", finish "2-5pm" (facts 71, 72; Tab 30, confirmed). No fixed hours stated to May 2024 (fact 73). Ms Reese, 21 May 2024: "I will follow up on the issues raised" (fact 79). Ms Taylor published her hours on 17 May 2024 (facts 81 to 84)
4	Does the Respondent maintain that pay errors were "remedied in a timely manner" and that there are no outstanding underpayments (SOFC [20(c)], [20(f)]; outline of Ms Wright)?	Payroll asked the line manager for AVACs on 3 May 2024 (facts 183 to 190). On 13 May payroll could not see that any had been corrected (facts 192, 193). The AVAC was submitted on 28 May 2024 (fact 297), with claims "older than 3 months" (fact 197), and is recorded as "Part Completed" (fact 203). Two AVAC process numbers cited by payroll do not appear in the myHR report (fact 210)

4. Stressor 1(a): the duties, the doctors' reports, and the restrictions

None of the Respondent's outlines of evidence addresses the Appellant's database and emergency response duties, the reports of the MASPER Registrar or the Integrated Respiratory Service, or the restrictions on access to the database. The admitted record is as follows.

4.1 The Appellant's duties

Duty (role description, Administration Officer, Switchboard Services, Tab 1)	Fact
"Collate information and maintain Omnivista database and SharePoint to ensure information held within Switchboard Services is accurate and appropriate"	6
"Participate in the Emergency Response process by receiving emergency response notifications and distributing them to the appropriate response groups... strictly adhering to protocols and timeframes"	8
Pager allocation and repair, "maintaining database and registers with accurate and current information"	7
"Maintain call queues to minimum at all times"	5
"Maintain discretion and exercise judgement... in situations where precedence have not been set and procedures not defined"	9
"Follow defined service quality standards, occupational health and safety policies and procedures"	12
Continuous shift work "over the full 24-hour period, 7 days a week"	2, 13

4.2 The doctors' reports of misrouted calls, and the response

When	What the admitted record shows	Facts	Interval
2 and 3 May 2024	Five misrouted calls (2 May 14:47; 3 May 10:00, 10:22, 11:43, 14:46), including a MET call: "switchboard could not tell them where VHUB was. Had to be redirected by MASPER"	57, 58	
3 May, 3:06 pm	Vivian Kwok, MASPER Registrar, reports them to Ms Taylor, copied to Dr Pan Jane Wong: "I've been requested to email you with the list of switchboard issues"	56	First report
5 to 8 May	Four further occasions (5 May 14:45; 7 May 07:45; 8 May 8:53, 9:59); on 8 May each call "incorrectly put through to MASPER"	60, 61	
8 May, 5:28 pm	Second report to Ms Taylor, copied to Dr Wong	59, 62	Fifth calendar day
9 May, 9:20 am	Ms Taylor replies to the Registrar and Dr Wong	63 to 65	5 days 18 h 14 min after the first report
9 May, 10:15 am	First communication to Switchboard staff ("MASPER process"): "There have been many ongoing issues raised by the MASPER and the medical department about calls being transferred to the wrong medical teams"	66, 67, 69	None alleged before this
	Every occasion occurred while the after-hours arrangement of 15 April 2024 was in force	68	
15 May, 11:47 am	Integrated Respiratory Service asks for the directory to be amended	89, 90	No response alleged before 20 May
20 May, 11:03 am	Reminder: "we continue to get calls put through to us"	91 to 93	Fifth day; no response alleged before 2:05 pm
20 May, 2:05 pm	The Appellant escalates to Ms Taylor, within her stated office hours	94 to 98	3 h 2 min after the reminder; 5 days 2 h 18 min after the first request
20 May, 4:30 pm	Ms Taylor: "this task was being actioned"	100 to 104	2 h 25 min later; 2 h after her stated hours
	No document of that discussion is listed. The directory is not alleged to have been amended by 20 May, nor staff notified of its modification on 22 February 2024	105 to 110	

4.3 The restrictions on access to the database and on after-hours changes

When	What the admitted record shows	Facts
18 Jul 2023, 12:56 pm	Database access removed from all Switchboard staff while the coordinator fixes the database: "I will be removing everyone's access to the database"	39, 40
18 Jul 2023	The "Contact & Number Changes" book removed from the room	45
From 18 Jul 2023	Changes only through Ms Stibbard, whose hours were "every Tuesday and second Monday, 8:00 - 16:00", or through Ms Taylor if Ms Stibbard was absent and the change urgent	41 to 43
From 18 Jul 2023	After hours ("overnights, on the weekend or public holiday"), requests "have to wait until either Chloe or myself are back"	44
15 Apr 2024, 12:39 pm	New after-hours on-call process, "effective from today"; during office hours, contact Ms Taylor	49 to 52
To 18 Jun 2024	The Respondent does not allege that database access was restored to the Appellant	55

	Question for the Respondent	The admitted record
5	Does the Respondent maintain its non-admission of Stressor 1(a) (SOFC [11])?	Sections 4.1 to 4.3, every entry admitted. The duties to maintain the database (fact 6) and to distribute emergency notifications "strictly adhering to protocols and timeframes" (fact 8) fell to be performed after database access was removed on 18 July 2023 (fact 40), and the Respondent does not allege it was restored (fact 55)

	Question for the Respondent	The admitted record
6	What action does the Respondent say was taken on the reports of 3, 8, 15 and 20 May 2024 before the Appellant's email of 20 May 2024 at 2:05 pm, and what document records it?	No communication to staff is alleged before 9 May at 10:15 am (fact 69). No response to either Integrated Respiratory Service email is alleged before the Appellant's escalation (facts 90, 93). No document of the 20 May discussion is listed (fact 105)
7	Does the Respondent rely on Metro South Health's statement that there were "no 'consequential' changes to operating procedures" (fact 266)?	New processes of 15 April (facts 49 to 53), 19 April (fact 54) and 9 May 2024 (fact 66). Complaints were "managed solely via email or verbally" (fact 267)

5. Stressor 1(d): the Special Pandemic Leave application, as one sequence

The myHR history (Tab 28), the Respondent's review decision (Tab 25) and the Respondent's pleading together record the whole sequence. Every entry below is admitted.

When	What the admitted record shows	Facts	Interval
20 Feb 2024	Request 1. The Appellant tells Ms Taylor he has tested positive for Covid; she asks him to send it to her "so she could submit it in MyHR". The Respondent pleads that Ms Taylor asked him to submit a Special Pandemic Leave request through myHR, attaching a statutory declaration or photo of his test	136; 132	
20 Feb, 11:24 to 11:41 am	Request 2 (myHR submission 1). Draft created and submitted, with the supporting attachment	114, 115; 134	
21 Feb, 12:23 pm	Ms Taylor, as "Reviewer", declines it. Her message: the minimum period for Covid leave was 5 days; the statutory declaration "was sufficient evidence"; resubmit	116, 137, 138	1 day 42 min after submission
28 Feb, 6:07 am	Request 3 (myHR submission 2). The Appellant resubmits	117	6 days 17 h 44 min after the first decline
29 Feb, 9:06 am	Ms Taylor declines it again, on her assessment that the statutory declaration was not attached. A review shows the attachments were present. The Appellant messages that he is confused and did everything as required	118, 133, 134, 139	1 day 2 h 59 min after resubmission
29 Feb, 11:07 am	Request 4 (myHR submission 3). The Appellant resubmits	119	2 h 1 min after the second decline
29 Feb, 11:21 am	Ms Taylor approves it as "Reviewer"	120, 124	13 min 35 s after resubmission
1 Mar 2024, 4:05 pm	Ms Reese approves it as "Manager"	121	1 day 4 h 44 min later
Overall	Four requests, three myHR submissions, two declines by Ms Taylor, then approval	122, 123, 125	10 days 4 h 40 min 20 s from draft to approval
The power	Sub-delegated to a Band 9 delegate, with no further sub-delegation. Neither Ms Taylor nor Ms Reese is alleged to have held it; the person who exercised it is not identified	127 to 131	
Others	No other Switchboard employee is alleged to have been required to submit a Special Pandemic Leave request personally through myHR in February 2024	142	
The Respondent's case	The second decline was "a matter of human error by Ms Taylor on the background of high work demands" (SOFC [14(f)])	135	

	Question for the Respondent	The admitted record
8	Who exercised the delegated power to decide the Special Pandemic Leave application, process 15480560?	SOFC [14] states the attachments were present. Ms Taylor had noted the statutory declaration "was sufficient evidence" (fact 138) and declined the application twice (facts 116, 118, 123). It was approved by Ms Taylor as reviewer on 29 February and Ms Reese as manager on 1 March 2024 (facts 120, 121). The power was sub-delegated to Band 9 and could not be sub-delegated further (facts 127, 128); it is not alleged that Ms Taylor or Ms Reese held it (facts 129 to 131)
9	Does the Respondent maintain that the handling of the application from 20 February to 1 March 2024, taken as a whole, was not unreasonable management action (SOFC [14])?	Four requests and three myHR submissions of the same application. Two declines, the second on a ground the Respondent accepts was wrong: the attachments were present (fact 134), and Ms Taylor had already said the statutory declaration was sufficient (fact 138). The third submission was approved in 13 minutes 35 seconds (fact 124). The whole took 10 days 4 hours 40 minutes (fact 125). The power was not alleged to be held by either person who acted on it (facts 127 to 131)

6. Stressor 3: the break of 17 to 18 March 2024, as one sequence

The seven-hour break is admitted by both parties (facts 226, 284). The sequence around it, from the agreement relied on to the response to the Appellant's request, is set out below. The emergency codes are shown from Tab 31, the Appellant's capture of Metro South Health's "2024 Emergency Code Register". Facts 228 to 230 are not admitted; Metro South Health states that the MET call spreadsheet for 17 and 18 March 2024 is available (fact 268), and its production would settle them. The entries on the Appellant's address, the drive and the roadworks are the Appellant's material; the address is taken from pay advices in the Respondent's own disclosure.

6.1 The rule and the agreement

When	What the admitted record shows	Facts
Standing rule	The Award and the employer's policy require a minimum break of 10 hours between shifts, or 8 hours by written agreement	285, 257
17 Jun 2020	The Appellant signs an agreement allowing an 8-hour break	17
Jun 2020	The fatigue leave policy: problems "can be overcome... by not rostering the employee who is on call for the first shift of the following day"	239, 240
Sep to Oct 2023	The Appellant moves to permanent full-time hours from 16 October 2023; the employer confirms a "change to your employment contract and adjustments in your working hours"	37, 38, 20
To 18 Mar 2024	No review, re-execution or re-confirmation of the agreement is alleged; nor that he was told, before 1 May 2024, that it could be terminated	21, 22
7 Jul 2026	Metro South Health Human Resources: the agreement "is only applied where staff initiated shift swaps have occurred". No swap is alleged for 17 and 18 March 2024	225, 234

6.2 The shift pairing, the emergency calls, and the travel between shifts

When	What the record shows	Facts
17 Mar 2024 (Sunday)	Rostered to finish at 23:00. No clause 6.2 agreement is alleged for this rostering	284, 180
17 Mar 2024 (the day of the shift ending at 23:00)	The Emergency Code Register records eight codes: 03:57 CODE GREY ED LOUNGE; 05:19 MET CALL WARD 5A BED 27; 07:48 ED CODE GREY CORRIDOR NEAR SHORT STAY; 13:48 MET CALL WARD 3B BED 2; 14:13 CODE GREY ED ADULT ACUTE BED 15; 19:16 MET CALL WARD 2H BED 7; 19:20 CODE BLUE WARD 2H BED 7; 21:16 MET CALL WARD 2Q BED 5	228 (not admitted); Tab 31; 268
18 Mar 2024 (Monday)	Rostered to start at 06:00. A break of 7 hours. Leaving up to 30 minutes early would still not give 8 hours	284, 227, 258, 259
18 Mar, 06:00 to 14:00	Six codes: 08:48 CODE GREY QAS TRIAGE AIRLOCK; 09:20 MET CALL WARD 6A BED 8; 11:31 MET CALL WARD 3DR BED 14; 11:32 CANCELLED MET CALL WARD 3DR BED 14; 11:35 NEONATAL MET CALL THEATRE 2; 13:09 NEONATAL MET CALL BIRTH SUITES 5	229, 230 (not admitted); Tab 31; 268
18 Mar, after 14:00	Five further codes: 14:38 MET CALL WARD 3DR BED 11; 14:45 and 14:55 CODE GREY QAS TRIAGE; 19:15 and 19:34 CODE GREY ED QAS RAMP	Tab 31
Home, March 2024	Unit 12304, 3113 Surfers Paradise Boulevard, Surfers Paradise QLD 4217, as printed on the Appellant's pay advices of 13 March 2024 and 27 March 2024	Respondent's disclosure, July 2025 (pay advices)
The drive	To Logan Hospital, 5 University Drive, Meadowbrook: about 54 km and about 45 minutes each way in free-flowing traffic, via the Pacific Motorway (M1)	Appellant's material (OpenStreetMap route)
Roadworks on the route	The M1 Pimpama (Exit 49) interchange upgrade was under construction from 2022 to late 2024. The Department of Transport and Main Roads advised in March 2024 that during construction there may be "temporary changes like altered speed limits, detours". The Coomera Connector Stage 1 North, beside the M1 at Coomera, was under construction from early 2023	Appellant's material (TMR, March 2024)
Time at home	Finishing at 23:00 and starting at 06:00, with about 45 minutes' driving each way: home at about 23:45 at the earliest, leaving at about 05:15 at the latest, so at most about 5 hours 30 minutes at home before handover, parking and preparation. The Appellant's account, recorded by the Review Unit: with travel, the break "would have been less than 5 hours"	284; 251; Appellant's material
19 Mar 2024	Sick leave, 7.6 hours, approved	235

6.3 The request, the response, and what followed

When	What the admitted record shows	Facts	Interval
8 Apr 2024	The Appellant asks Ms Taylor to review his pay for 8 to 31 March 2024, citing the 10-hour minimum	242, 243	
9 Apr 2024	Ms Taylor escalates the fatigue leave enquiry to Human Resources, and asks him to raise concerns as soon as they arise	244, 245	
24 Apr 2024	The Appellant: "more than 2 weeks without any response or overtime payment"	246	No response alleged between 9 April and 1 May (fact 250)
1 May 2024	Ms Taylor: after consulting payroll and Human Resources, the fatigue payment "would not be processed due to the existing 8-hour agreement"; "you are able to terminate this agreement going forward"	247, 248	23 days after the request (fact 249)
1 May 2024, 1:18 pm	The Appellant sends Ms Reese the fatigue toolkit in the Operations Manual	214	
10 May 2024	Ms Reese to Human Resources: his concern is "how it is impacting on staff fatigue, or more specifically his fatigue"; the roster risk rating is "at best... 11 which is moderate"	218, 219	
20 May 2024	Ms Reese follows up with Human Resources, attaching the Fatigue Risk Management Systems guideline	222, 223	
24 Oct 2024	The Respondent's Review Unit: "uncertainty" whether the agreement applied; the rostering "amounted to unreasonable management action given that it was in direct contradiction to the award and the 8-hour agreement"	254, 260	
To 30 Jun 2024	No fatigue risk assessment, training or implementation at the Switchboard is alleged. The Chief Executive: the assessment "occurred after 30 June 2024"	264, 269 to 271	

	Question for the Respondent	The admitted record
10	Does the Respondent maintain that the 2020 eight-hour agreement applied to the shifts of 17 and 18 March 2024 (SOFC [22(e)]; outlines of Ms Taylor, Ms Reese and Ms Wright)?	Section 6.1. No swap is alleged (fact 234); Human Resources limits the agreement to staff-initiated swaps (fact 225). The break was seven hours, less than eight on any view (facts 258, 259, 284)
11	Does the Respondent maintain that the break was "not intentional or repeated" in the sense that no other rostering error affected the Appellant (SOFC [22(a)]; outline of Ms Taylor)?	Ms Reese, 7 August 2023: "a rostering error that was accidentally made by Chloe with regards to night shifts" (fact 287). Ms Taylor, 7 August 2023: "this was an oversight" (fact 156). Ms Reese, 26 April 2024: Ms Taylor "was working to fix this error" (facts 211, 212). Ms Reese to Human Resources, 10 May 2024: "I acknowledge there has been a few rostering errors made by Chloe with regards to Cory's line in past rosters" (fact 220)
12	On what basis does the Respondent say the fatigue payment for 18 March 2024 was declined: the 2020 agreement, or clause 18.10 of the Award?	The reason given on 1 May 2024 was "the existing 8-hour agreement" (fact 247). SOFC [24(b)] pleads clause 18.10, "because he was not performing overtime" (fact 237)
13	Which management action does the Respondent say was reasonable in respect of the break, the 23-day response, and the advice that the agreement could be terminated "going forward"?	The Review Unit found the rostering "unreasonable management action" (fact 260). Payroll's advice, in the outline of Ms Wright: "a rostering practice issue for the line manager". SOFC [27] identifies no action (fact 303)

7. The Respondent's settled position under section 32(5)

SOFC [27] contends that any management action involved in the causation of any injury was reasonable management action taken in a reasonable way. It does not identify the action relied on (fact 303). As particulars of that contention, the Respondent is asked to state its settled position on each action below: whether it says the action was management action, and, if so, whether it says the action was reasonable and taken in a reasonable way. Where the answer is yes to both, the Respondent is asked to identify the facts relied on.

	Action (admitted facts)	Management action? (yes / no)	Reasonable and taken in a reasonable way? (yes / no)
A	Removal of database access from all Switchboard staff, and of the "Contact & Number Changes" book, 18 July 2023, without restoration alleged (facts 40, 45, 55)		
B	Changes routed only through Ms Stibbard or Ms Taylor, with after-hours requests to "wait until either Chloe or myself are back" (facts 41 to 44)		
C	The after-hours on-call process "effective from today", 15 April 2024 (facts 49 to 52, 180, 181)		
D	The response to the MASPER Registrar's reports of 3 and 8 May 2024 (facts 56 to 69)		

	Action (admitted facts)	Management action? (yes / no)	Reasonable and taken in a reasonable way? (yes / no)
E	The response to the Integrated Respiratory Service, 15 to 20 May 2024 (facts 89 to 110)		
F	Removal of the Communication Book entry, June 2023 (facts 143 to 147)		
G	The rostering of 17 and 18 March 2024 with a seven-hour break. The Respondent's review decision found it "unreasonable management action" (facts 226, 258 to 260, 284)		
H	The response of 1 May 2024 declining the fatigue payment, 23 days after the request, and the advice that the agreement could be terminated "going forward" (facts 242 to 250)		
I	The handling of the Special Pandemic Leave application from 20 February to 1 March 2024, taken as a whole: four requests, three myHR submissions, two declines, approval after 10 days 4 hours 40 minutes (facts 114 to 142; SOFC [14])		
J	The timing of the AVAC corrections, 3 to 28 May 2024 (facts 183 to 197, 297)		
K	The request of 15 May 2024 that the Appellant retract his email (facts 74 to 79)		

8. Response schedule for the Respondent

For each question, the Respondent is asked to indicate whether the position is maintained or not maintained or, for questions 6, 8, 12 and 13, to answer it. A matter not maintained can be recorded at the conference as no longer in issue.

Q	Matter	Respondent's position
1	Directives issued without consultation or assessment (SOFC [11])	
2	The on-call notification process, 13 to 15 May 2024 (SOFC [16(b)])	
3	The Appellant's email of 15 May 2024 as an accusation (outline of Ms Reese)	
4	Pay errors "remedied in a timely manner"; no outstanding underpayments (SOFC [20])	
5	Non-admission of Stressor 1(a) (SOFC [11])	
6	Action taken on the reports of 3, 8, 15 and 20 May 2024 before 2:05 pm on 20 May, and the document recording it	
7	Reliance on "no 'consequential' changes to operating procedures" (fact 266)	
8	The delegate who decided the Special Pandemic Leave application (SOFC [14])	
9	The Special Pandemic Leave sequence, taken as a whole, as not unreasonable management action (SOFC [14])	
10	Application of the 2020 eight-hour agreement to 17 and 18 March 2024 (SOFC [22(e)])	
11	The break as "not intentional or repeated" (SOFC [22(a)])	
12	The basis on which the fatigue payment was declined: the agreement or clause 18.10 (SOFC [24(b)])	
13	The management action said to be reasonable in Stressor 3 (SOFC [27])	

9. The Appellant's position

On the admitted record, the Appellant considers that the primary facts are settled and that the matters remaining are the application of the law to those facts and the medical evidence. The Appellant invites the Respondent to consider its position on the admitted record. Where a position is maintained, the Appellant will address it at any hearing by reference to the admitted facts identified in this paper. If the matter does not resolve, the Appellant is ready to proceed to a hearing on the issues that remain.

Cory Lea Shepherd
Appellant, self-represented
