WC/2024/227 – Cory Lea Shepherd v Workers' Compensation Regulator
Direction 5 of the Further Directions Order (3) dated 19 August 2026, and questions for the Respondent

Dear Registrar,

1. The directions are complete

I filed my list of witnesses and served my outlines of evidence on 9 September 2026. The Respondent filed its list of witnesses and served its outlines of evidence on 24 September 2026, and the time for its material under directions 3 and 4 expired at 4.00 pm on 30 September 2026. In accordance with direction 5, I write to progress the matter.

2. The facts and documents

On 8 September 2026 the Respondent answered my notices to admit facts and documents of 28 August 2026. It admitted 298 of the 303 facts. The other five were not admitted, and none was denied. It admitted the authenticity of 25 of the 39 documents annexed to the notices.

On 24 September 2026 the Respondent confirmed the authenticity of four more documents, and it has asked Metro South Health for nine others. Twenty-nine of the 39 documents are therefore now admitted or confirmed. The ten that remain are listed in the attached schedule. Each is a record of Metro South Health or of the Appellant's union. For every one of them except Tab 31, the contents are already admitted, and the only question left is the authenticity of the copy.

No admission has been withdrawn. The Respondent has served no medical or expert evidence, and the time for it to do so has expired.

3. The questions for the Respondent

I enclose a paper that I have today provided to the Respondent. It sets out, stressor by stressor, the facts the Respondent has admitted; fifteen questions arising from the Respondent's outlines of evidence, each by reference to those facts; and a schedule asking the Respondent to state its settled position under section 32(5) of the *Workers' Compensation and Rehabilitation Act 2003*, on each action and on the course of conduct, as particulars of paragraph 27 of its amended statement of facts and contentions. The Respondent admits that paragraph 27 does not identify the management action relied on (fact 303). I have asked the Respondent to respond by 15 October 2026. The paper contains no submission.

4. How the matter should proceed

I leave to the Commission how the matter should proceed. If the Respondent is able to state its position in writing, a conference may not be needed, or may be confined to what then remains. If a conference is needed, I ask that the matter be listed for a second conference under section 552A of the *Industrial Relations Act 2016*. I believe the following matters are capable of resolution there, or by agreement:

- (a) the ten documents listed in the attached schedule, by agreeing a list of documents to be tendered without further proof: the nine in Part A once Metro South Health provides its copies, and Tab 24 in Part B by agreement or through Ms Conaghan, a recipient of it;
- (b) facts 228 to 231, on production of the MET call spreadsheet that Metro South Health, in its letter of 5 June 2026, states is available;
- (c) whether the Respondent requires the medical witnesses to attend for cross-examination;
- (d) the management action relied on at paragraph 27 of the Respondent's amended statement of facts and contentions; and
- (e) the production of documents referred to in the Respondent's outlines of evidence, to the extent not already disclosed, including the Technical Support advice referred to by Ms Wright and the email of 15 May 2024 at 4:12 pm referred to by Ms Reese.

When the remaining documents are confirmed and the Respondent has responded, the primary facts will be settled. What will remain is the application of the law to those facts, and the medical evidence. The Commission may then consider whether the issues can be narrowed, or any of them determined without a full hearing. I would be assisted by any direction the Commission considers appropriate, including as to the time for the Respondent's response.

5. The documents

I have not attached the notices to admit facts and documents of 28 August 2026, Annexure A to them, or the Respondent's responses of 8 September 2026. I can provide them, and any document referred to in the paper, if the Commission requires.

6. Readiness

If the matter does not resolve, I am ready to proceed to a hearing with the witnesses and material I have served. I will abide by whatever course the Commission considers most appropriate, after hearing from the Respondent, and I await the Commission's direction.

A copy of this letter and its enclosure is provided to the Respondent.

Yours faithfully,

Cory Lea Shepherd

Appellant, self-represented

WC/2024/227 – Schedule to the letter of 1 October 2026: the ten documents that remain to be confirmed
