Supporting statement – two applications for sick leave without pay

Recoding of two periods presently recorded as leave without pay, at the request of Metro South Payroll · 11 September 2026

I apply for **sick leave without pay** for the two periods identified by Metro South Payroll on 7 and 8 September 2026. The dates below are Payroll's own and are not varied.

Application	Period	Days (inclusive)
1	21 June 2024 – 20 September 2024	92
2	13 December 2024 – 23 February 2025	73

Both periods are presently recorded as leave without pay. No other period is affected.

Payroll has already identified the correction. On 8 September 2026 Ms Grace Strachan, Senior Payroll Officer, wrote that these periods "should have been booked as Sick No Pay (SNP) rather than Leave Without Pay (LWOP)", that "new leave forms will be required for both periods", and that once the forms are received and the leave updated, "we can recognise the first three months of each period towards your LSL date." These two applications supply the leave forms Payroll requires. I am not asking anyone to accept a new position; the position is Payroll's own.

Both absences were medical. Four work capacity certificates are attached – Dr Peter Hawes 1 July 2024, Dr Ki Pang 7 August 2024, and Dr Peter Hawes 11 August and 8 September 2024. They record the stated date of injury as 18 June 2024, first presentation on 1 July 2024, no pre-existing factor or condition, and **no functional capacity for any type of work over the period 1 July to 6 October 2024**. The second period was a continuation of the same condition, under the care of a treating specialist from 24 October 2024, and it ends on 23 February 2025 – the day before my return to work at 7:00 am on 24 February 2025. If anything further is required, please tell me what it is and I will provide it.

Effect. Payroll records commencement on 25 March 2019 and 189 days presently excluded, moving the long service leave date to 29 September 2026. Each of these two periods falls entirely within its own first three months, so on Payroll's stated approach 165 of those 189 days return. The calculation is of course Payroll's to make.

Reservation. I have received no wages for work since 13 July 2026. Any leave applied for, taken or paid since that date is applied for and taken under protest and without prejudice to my claim for wages, and I reserve the right to seek reinstatement of the leave taken. These two applications relate to 2024 and 2025 and are made solely to give effect to the recoding Payroll has identified.

Signed

Cory Lea Shepherd · Administration Officer, Switchboard Services, Logan Hospital · Employee no. 388372

Date: 11 September 2026

Attached: work capacity certificates of Dr Peter Hawes dated 1 July 2024, Dr Ki Pang dated 7 August 2024, and Dr Peter Hawes dated 11 August and 8 September 2024.

Part A - Patient details

Name Cory Shepherd Act 2003 Date of Birth 11/01/1991
Mobile number 0422438627N Work is Claim number S23LW142013 ☒ New claim ☐ Claim is report only
Occupation (if known) Admin worker Patient's employer Qld Health

Part B - Injury details

Date of examination 01/07/2024 Patient's stated date of injury 18/06/2024 Patient was first seen at this practice/hospital for this injury/disease on 01/07/2024

The patient is/was suffering from (List all work-related diagnoses. anxiety, stress
If symptoms only, tick "Provisional diagnosis" ☐ Provisional diagnosis

Patient's stated mechanism of injury Is this consistent with your clinical findings?
☒ Yes ☐ Unclear

Describe mechanism in detail
Pre-existing factors or condition
aggravated (if not previously supplied)

Part C - Treatment plan

Patient requires/d treatment from 01/07/2024 to 04/08/2024 to be reviewed again on 04/08/2024 ☐ No further review

Treatment needs time away from this environment

I have prescribed medication that may impede safe work, travel or cognitive function ☐ No ☐ Yes

Referrals ☐ Diagnostic ☐ Allied Health ☐ Name/discipline Details (specify)
Specialist/GP

Part D - Capacity for work (choose from one of three options)

☐ The certified injury does not prevent a return to pre-injury duties. Do not complete part E. Go to Part F. ☐ If suitable duties available, can return to some form of work from ☒ No functional capacity for any type of work until

Complete the below section if you certified no functional capacity for any type of work

If no functional capacity, state why? (if no capacity for more than 7 days, the insurer may contact you to obtain more information)

stressed and anxious,

Estimated time to return to some form of work duties unknown

Estimated time to return to full duties unknown

Part E - Functional ability

(Optional for emergency medical practitioners/dental practitioners. Nurse practitioners not to complete.)

No change since last certificate

Certification should be based on what CAN be done, NOT available duties. Consider what the patient can do, either at work or home.

Function/task (patient's usual functional ability)	Is functional ability affected by injury/condition?	Note any restrictions (if relevant)	What patient can do (if "yes" is selected)
Lower limb	No		
Upper limb	No		
Hand function	No		
Spinal function	No		
Cognition/psychosocial functioning	No		
Driving a car	No		
Operating machinery/heavy vehicle	No		
Manual tasks	No		
Other	No		

Part F - Rehabilitation at work - return to work plan

(Optional for emergency medical practitioners/dental practitioners. Nurse practitioners not to complete.)

What workplace modifications are required to facilitate return to work? (e.g. work site assessment, psychosocial considerations)

Other considerations or factors that may affect recovery (the insurer can arrange appropriate support)

☐ I require a suitable duties program to be provided to me for approval

I have discussed injury requirements and return to work with the patient and ☐ Employer ☐ Insurer ☐ Rehabilitation provider

Part G - Medical/dental/nurse practitioner details and statement (or use practice/hospital stamp)

I have discussed the information contained in this certificate with the patient. I have provided the clinical information in this certificate.
