Sent: Thursday 10 September at 16:25

Dear Jacqui, Chloe and Payroll,

I am asking for one thing to be done, not decided: the two leave forms Payroll asked for on 7 September 2026, so that my long service leave date can be recalculated and the leave paid. This email also asks for an answer on the Health Service's outstanding request to Dr Krishnaiah. A separate email is being sent today about information handling, and it does not ask anyone to decide either of these matters.

1. Long service leave — Payroll has already identified what is required

I am not asking anyone to accept a new position. Payroll has already stated it.

On 8 September 2026 at 2:24 pm Grace Strachan wrote:

"We believe that the periods 21/06/2024 - 20/09/2024 and 13/12/2024 - 23/02/2025 should have been booked as Sick No Pay (SNP) rather than Leave Without Pay (LWOP)... If these periods need to be changed to Sick No Pay, new leave forms will be required for both periods. Once the leave forms are received and the leave is updated accordingly, we can recognise the first three months of each period towards your LSL date."

Payroll had put that question to the line manager the previous day, 7 September 2026 at 1:28 pm:

"Could I please confirm with you whether the following periods were intended to be recorded as Sick No Pay rather than Leave Without Pay? 21.06.2024 - 20.09.2024 / 13.12.2024 - 23.02.2025. This will affect the employee's LSL date... we would require a leave form to be submitted for both periods. Could you please confirm?"

That request was addressed to the line manager and copied to the Payroll Service Leader, with Injury Management in the chain. No reply has been received from any recipient. The pay period cut-off has since passed without the recalculation being completed.

I do not accept deferral to the following cycle. I ask that this be processed and paid by ad hoc, as was done last week under PRN 24973005, and that I receive a response.

Why it matters, on Payroll's own figures. I commenced with Queensland Health on 25 March 2019. Payroll's calculation of 4 September 2026 records that commencement date. Payroll has identified 189 days presently excluded: 24 days (18 May to 10 June 2022), 92 days (21 June to 20 September 2024) and 73 days (13 December 2024 to 23 February 2025). If the two 2024 and 2024-25 periods are recoded, the first three months of each are recognised, and substantially all of those 165 days return. On that arithmetic the seven-year date has already passed.

Nobody has said I did not complete the qualifying period. Nobody has said the entitlement was forfeited. What remains is an administrative step that Payroll has already specified.

What I ask to be done, today, Thursday 10 September 2026:

1.1 That the two leave forms Payroll requires be submitted for 21 June to 20 September 2024 and 13 December 2024 to 23 February 2025.

1.2 That my long service leave date be recalculated on the corrected codes, long service leave be entered from the earliest date the recalculation allows, and payment be made by ad hoc. The ad hoc under PRN 24973005 shows that path is available and works once the instruction is given.

1.3 If those two leave forms can be lodged by me rather than by the line manager, please say so and I will lodge both today. If the confirmation Payroll sought on 7 September must come from the line manager and she is unavailable, please confirm who the approving delegate is so it can be obtained from that officer instead.

I am available to complete or sign any form Payroll or HR needs, today. I do not want the availability of any one officer to be the reason this is not resolved this week.

Please confirm in writing by close of business on Friday 12 September 2026:

(a) that the two leave forms have been submitted, by whom and on what date; the recalculated long service leave date; and the date of the ad hoc payment; or

(b) if that has not been done, who has decided it will not be done and the written basis for that decision.

Three requests about this have now gone unanswered. If I have no substantive response by Friday 12 September 2026 I will ask Together Queensland to take the matter up on my behalf and will write as the formal office as delegate.

A separate matter, not to be conflated with the above. Since 3 July 2026 I have been certified fit for duties with restrictions and available, and I have not been provided work. Those days are currently recorded as leave

without pay. I ask that the coding of that period be reviewed separately, on its own merits, after the two forms above are lodged. I raise it now only so it is not overlooked, and I do not want it to delay paragraph 1.1.

Reservation. I have received no wages for work since 13 July 2026. What I have been paid since then, including the ad hoc payment under PRN 24973005, has been drawn from my own leave accruals and not paid as wages. I am accessing leave only for that reason. I remain ready, willing and able to work within the restrictions recorded in the Employee Capability Checklist of 3 July 2026. Any leave taken or paid in this period is taken under protest and without prejudice to my claim for wages for the period I have not been provided work, and I reserve the right to seek reinstatement of the leave taken.

2. Dr Krishnaiah — RFMI MSH-INJ-5795

On 31 July 2026 Metro South Health requested medical information from my treating psychiatrist, Dr Ravikumar Bangalore Krishnaiah.

On 12 August 2026 I gave Injury Management written consent so that Mind and Memory Service could confirm Dr Krishnaiah's two requirements for completing that request.

On 24 August 2026 at 11:13 am I sent Jacqui my agreement to the sharing of medical information with my treating psychiatrist, on the condition that I be given prior notice of what would be shared and what questions would be asked. That email was acknowledged at 12:19 pm the same day. The authority was given for one purpose: so that the psychiatrist could complete the report Metro South Health had requested.

Dr Krishnaiah has recorded that he contacted Logan Hospital and that Queensland Health had not responded. I told LBH HR that on 28 August 2026, following the consultation of 27 August. I wrote again to Injury Management on 4 September 2026.

I still have no written confirmation that any request has been sent to him, what it contained, or when. The Health Service has said it will meet the cost of the

psychiatrist, and that is accepted. The request cannot remain open and unactioned.

Please confirm by Friday 12 September 2026:

2.1 whether Metro South Health still requires the information sought by RFMI MSH-INJ-5795;

2.2 if it does — whether a request has been sent to Dr Krishnaiah, on what date and by whom; and if it has not been sent, the date it will be sent, with the questions provided to me first, as I asked on 24 August 2026; and

2.3 if it does not — written withdrawal of the RFMI.

Kind regards,

Cory Shepherd
