■ Gaps in the log

1. The emails of **8 and 24 April and 1 May 2024** are recited in the Review Decision but **not held**. They form part of the chain *"Request for review and adjustment of payment — 08/04/2024 to 23/08/2024"* at item 23 of the Respondent's list, and are requested in the letter of 22 August 2026.

2. The chain at item 23 runs to **23 August 2024**. This log ends the correspondence at 26 August. **There may be further pay contacts between 9 August and 23 August 2024 that are not recorded anywhere held.**

3. Nothing records a pay contact between **28 May and 12 July 2024** — the period covering the last day worked and the injury. That silence is itself worth noting and should be checked against his own sent items.
