WC/2024/227 - Cory Lea Shepherd v Workers' Compensation Regulator

Matters that may be agreed before the section 552A conference; the Schedule of 1 October 2026, updated

Dear Ms Matheson,

Thank you for your emails of 12 and 16 October 2026 confirming the veracity of the documents at Tabs 1, 5, 17 to 19, 21 to 23 and 31 of Annexure A and of the documents at Tab 32, and for your email of 19 October 2026 with counsel's availability for the conference.

The documents. With those confirmations, 38 of the 39 documents at Annexure A to the notices to admit served on 28 August 2026 are admitted or confirmed; Tab 24 is the only one outstanding. The Schedule to my letter of 1 October 2026 is enclosed, updated to 22 October 2026. Part 1 shows the position of each document, and two short tables follow it: the documents at Tab 32, and the entries in the spreadsheet you provided on 12 October 2026 that facts 228 to 231 record. Parts 2 and 3 are unchanged.

Matters that may be agreed. So that the conference can be used efficiently, and without delaying it, could the Respondent please indicate its position on the following matters by 4.00 pm on Friday 30 October 2026? Any matter that is agreed can then simply be noted at the conference.

1. Facts 228 to 231. These facts record entries in the Emergency Code Register for 17, 18 and 19 March 2024 and were not admitted on 8 September 2026. Each of them records entries in the spreadsheet "2024 Emergency Code Register_16 to 20 March 2024.xlsx" that you provided on 12 October 2026 and whose veracity the Respondent has confirmed; the table after Part 1 of the Schedule identifies those entries by row. Now that the spreadsheet is confirmed, does the Respondent admit facts 228 to 231?

2. Tender. Does the Respondent agree that the 38 documents at Annexure A that are admitted or confirmed, and the document at Tab 32A, may be tendered at any hearing without further proof, either in the form at Annexure A or, for the nine documents you provided on 12 October 2026, in that form? Could the Respondent also say whether it maintains its dispute as to the authenticity of the copy at Tab 24 and, if it does, on what ground?

3. Relevance and admissibility. Your letter of 8 September 2026 and your email of 16 October 2026 reserve the right to object to the relevance or admissibility of any fact or document at the hearing. So that any such objection can be identified at the conference rather than at the hearing, could the Respondent please identify any admitted fact, and any document at Annexure A or Tab 32A, whose relevance or admissibility it intends to dispute, and the ground?

As the proposed Second Amended Form 9A states (Part C, paragraph 8), the admissions are relied on as evidence that the documents admitted exist and of what they say, and as evidence of what the Respondent's statement of facts and contentions and List of Documents do not contain; the Appellant does not contend that any admission decides whether any conduct was reasonable. Agreeing to tender, or confirming that no objection is taken to relevance or admissibility, would not require the Respondent to accept the truth of any statement in a document. The weight of each document, and whether any conduct was reasonable management action taken in a reasonable way, remain matters for the Commission.

4. Section 32(1). Review Decision 69983 states, under the heading "Conclusion", that the Appellant "sustained a personal injury of a psychological nature" and that the "injury arose out of employment, to the extent that it arose out of factors 2, 3 and 4, where employment was a significant contributing factor" (facts 261 and 262, admitted); the claim was rejected under section 32(5) of the Act. Does the Respondent agree that, to that extent, the elements of section 32(1) are not in issue, so that the issue for any hearing is confined to section 32(5)?

5. Leave. Does the Respondent consent to leave to file the proposed Second Amended Statement of Facts and Contentions provided on 1 October 2026? If it intends to amend its own statement of facts and contentions in

response, how much time does it seek? I intend to provide, before the conference, a corrected version of the proposed statement with a one-page list of the changes; the corrections add no new stressor or allegation.

6. Paragraph 27. At the conference I will ask which management action the Respondent relies on for the contention in paragraph 27 of its amended statement of facts and contentions (fact 303), so that the issues for any hearing can be identified.

To the extent these matters are not agreed, I will ask the Commission at the conference to deal with them and, if necessary, to make directions or to list the matter for mention.

Yours sincerely,

Cory Lea Shepherd, Appellant (self-represented)

Enclosure: Schedule to the Appellant's letter of 1 October 2026, updated to 22 October 2026 (Parts 1 to 3).

WC/2024/227 - Schedule to the Appellant's letter of 1 October 2026, updated to 22 October 2026

The schedule is reproduced as provided on 1 October 2026. Only Part 1 is updated: its introduction, the new column "12 Oct 2026", the column "Position now" and the note after the table; two tables are added after it, for the documents at Tab 32 and for facts 228 to 231. Parts 2 and 3 are unchanged.

Schedule, Part 1: the 39 documents at Annexure A (notices to admit served 28 August 2026) and their status

The 39 documents at Annexure A to the notices to admit served 28 August 2026 are the documents from which the facts in Part B of the proposed Second Amended Form 9A are drawn. On 8 September 2026 the Respondent admitted the authenticity of 25 of them and disputed 14. By email of 24 September 2026 it confirmed four of the 14 "upon further review of the appeal file", stated that it had "requested copies of these documents to be disclosed from MSH" for nine others, and did not mention the fourteenth. By email of 12 October 2026 it provided disclosure copies of those nine documents, Tab 31 as the spreadsheet "2024 Emergency Code Register_16 to 20 March 2024.xlsx", and stated: "The regulator confirms the veracity of the attached documents." Thirty-eight of the 39 documents are therefore admitted or confirmed; the fourteenth, Tab 24, has not been addressed. The facts recorded in 13 of the 14 were admitted on 8 September 2026 to the extent set out in Part B; the exception is the register at Tab 31, from which facts 228 to 231 were not admitted. The table after Part 1 identifies, by row of that spreadsheet, the entries that facts 228 to 231 record.

The Appellant asked the Respondent on 9 September 2026 to confirm the ten outstanding documents. The copies of Tabs 1, 5, 17 to 19, 21 to 24 and 31 came from the Appellant's own records; Tabs 17 to 19, 22 and 23 bear the signature of the employer's Director, Corporate Services. On 12 October 2026 the Respondent provided its own copy of each of the ten except Tab 24. Tab 24 is a Together Queensland document, which the emails of 24 September and 12 October 2026 do not address.

Documents at Tab 32 (provided to the Respondent on 7 October 2026). Metro South Health enclosed both documents with its letter of 5 June 2026 (Tab 20). In answer to the Appellant's request under rule 49 of the *Industrial Relations (Tribunals) Rules 2011*, the Respondent stated by email of 16 October 2026: "The Regulator confirms the veracity of these documents."
