

WITNESS ACCOUNT PROMPTS — PRIVATE EVIDENCE CAPTURE

FOR CORY — PRIVATE. Write these in your own words, one sitting each, date each page. Not for sending; for evidence-in-chief readiness + Report B history. Anchor facts (who was present, roughly when, what shift) matter more than polish.

1. 24 FEBRUARY 2025, 7:00am — the return that didn't happen. What was arranged (the E. Bain confirmation), what you knew that morning, when you next contacted or were contacted by MSH, what was said about your absence, and what was NEVER said (no welfare inquiry). 2. THE SCREAMING INCIDENT(S). Each occasion: approximate date/shift, where, who was present, what was said/done, how it ended, anyone you told at the time. 3. THE TORN-OUT PAGE(S) — beyond the admitted 6 June 2023 comm-book page: any other occasions records were removed/altered; who had access; what the page(s) contained. 4. MANAGING THROUGH LEAVE — what you observed across the team: who took leave around which high-volume periods; what was said in the room about why; your own pattern and when your balance ran out. 5. THE PATIENT-SAFETY REPORT — what you reported, to whom, when; every response you ever received (or the silence); when you realised no investigation was occurring; what that did to you (this paragraph is also for Dr Krishnaiah).
