

THE CEILING SET — INDEX AND DEPLOYMENT MAP

WC/2024/227 and the employment track · finalised 4 August 2026 · The eight documents that can still move the numbers. Everything else is at ceiling: movement now comes from converting events — the consult, the 10th, the disclosure list, the 24th — and each converter below is built, gated, and aimed.

#	DOCUMENT	STATUS / TRIGGER	DESTINATION	WHAT IT MOVES
01	Letter of Instruction — Report B	HOLD — at/after the rebooked consultation, question-set settled first	Treating psychiatrist	The appeal ceiling: ~36% → ~57% at hearing conditional on the report
02	Report A Scope Note	With the allocated MSH questions at the consultations	GP + psychiatrist	Keeps capacity (Report A) and causation (Report B) from bleeding; protects the appeal
03	Stage 2 Referral	MON 10 AUG if Stage 1 unresolved	LBH HR (cc Taylor, union)	Opens the mandatory conference ('shall arrange'); feeds s 261 genuine-attempt record
04	IP Act Access Application	LODGE MON 10 AUG (free)	MSH RTI & Privacy Unit	The delegate record; decision instruments; the conflict-register search ('no documents' = the s 89 gap proven); complaint routing; PID handling
05	RTI Application	LODGE MON 10 AUG (fee)	MSH RTI & Privacy Unit	Names the nameless process; the ECC/RFMI procedures; the delegations schedule
06	Calderbank #3 Skeleton	GATED — all five conditions precedent (list mined · 64G outcome · 24 Aug passed · Report B held/dated · runway reviewed). Window: late Aug–Sept	Matheson + registry	Converts the enlarged record into settlement + arms s 545 costs properly
07	Witness Account Prompts	THIS WEEK — private, one sitting each, dated	Cory's own file	Preserves the unrecorded evidence (24 Feb, incidents, leave pattern, the report) before memory softens
08	Runway Action Sheet	THIS WEEK — one hour	Centrelink, bank, Zappia, Petering	Neutralises their last lever (time vs money); obtains the two QSuper exhibits; activates the union

INTEGRATION: 07 feeds 01 (the account informs the history Report B records). 01 + the 64G outcome + the 24 Aug deemed refusal feed 06 (the recitals). 04/05 feed both tracks (the delegate and conflict records serve the s 89 questions and the RMA manner case). 08 protects the timeline all of them need. Deployment discipline unchanged: nothing sent early, nothing sent hot, everything on its trigger.
