

NOTE FOR MY TREATING PRACTITIONERS — SCOPE OF THE HEALTH SERVICE REPORT

Cory Lea Shepherd · MSH-INJ-5795 · to accompany the allocated questions

NOTE FOR MY TREATING PRACTITIONERS — SCOPE OF THE HEALTH SERVICE REPORT ("Report A")

The attached questions come from my employer, Metro South Health, for return-to-work purposes. Their letter's arrangement is that MSH meets the reasonable costs — please invoice lbh_InjuryManagement@health.qld.gov.au directly, quoting MSH-INJ-5795.

Scope: my consent for THIS report extends to my current capacity, my restrictions, and their operational application to the duties of my position (role description attached). It does not extend to the causation of my condition — question 1(b) of the original set is contested and should not be answered unless MSH confirms it presses it and you consider it clinically answerable. If any question seems to seek causation for litigation rather than capacity for return to work, please say so rather than answer it.
